

Worried about rising energy costs?

The Mayor of London is subsidising **FREE** energy audits where an experienced energy consultant will walk around your building to help you understand what practical steps you can take to reduce your energy use and bills.

On average businesses waste 30% of their purchased energy!

If you'd like to invest in your building or vehicle fleet to make it more energy efficient, this can be costed up showing the investment required, payback period, and energy savings.

Eligible businesses must own the building or have enough control to implement recommendations.

Better Futures+

A net zero and energy support programme for businesses funded by the Mayor of London:

Energy crisis workshops

Hybrid and online workshops where you can learn practical steps to reduce your business energy bills and manage energy usage better. Facilitated by energy experts who are on hand to answer questions.

Energy audits

In-person site visits with an energy consultant to help identify quick wins that will reduce your business energy use and save money on your bills.

Carbon management with Climate Essentials

Measure, track and reduce your business carbon emissions with 12-months free access to the Climate Essentials carbon calculator and reduction planner. Plus, get advice in a 1to1 session with a carbon specialist.

Interactive webinars and workshops

Experts provide practical and tailored advice for busy business leaders. Learn how to make a net zero strategy, authentically promote what you're doing and win new customers.

Consultancy

40 consultancy packages that include energy advice, financial modelling, business strategy, and mentoring on any net zero idea or challenge you would like extra help with.
